# Green Pen GUIDE

A collection of eco-friendly pens and pencils made from sustainably sourced materials such as card, wheat, bamboo and wood. To reduce your carbon footprint even further, look out for European made models.

## CARD BARREL

Utilising the robustness of recycled cardboard provides a barrel material that not only functions effectively but also naturally decomposes within a relatively brief timeframe. Recycled cardboard can also undergo recycling once more, although eventually, the recycled material may be repurposed into materials used in items such as clothing.

## WHEAT BARREL

The wheat plastic employed in our pens combines traditional plastic with 50%-60% plastic derived from wheat straw waste. This typically discarded agricultural residue can be blended with conventional plastics to create pen components, reducing the reliance on traditional petroleum-based plastics.

## BAMBOO BARREL

Bamboo is a completely natural and 100% biodegradable material, cultivated without pesticides and with significantly lower water usage compared to other crops. We responsibly source bamboo from sustainable origins to craft barrels that are not only visually appealing but also resilient.

## PET BARREL

PET plastic is extensively employed in producing water bottles and holds the distinction of being the most commonly recycled plastic. Our RPET is sourced from recycled water bottles and can undergo recycling once more – in fact, RPET can be recycled up to 10 times!

## WOOD BARREL

The wood employed in our pens belongs to the 'Birch' family, a completely natural and 100% biodegradable material sourced sustainably.

## COFFEE BARREL

Carefully crafted from recycled coffee ground waste, contributes to a sustainable and eco-friendly approach by significantly diminishing our reliance on oil-based plastic materials, thus making a meaningful impact on environmental conservation.

## ALUMINIUM BARREL

Environmentally conscious pens skillfully manufactured using recycled aluminum cans for the body, some of the plastic trims are crafted from recycled PET, which is from discarded water bottles.

For more information on eco pens and their various designs, please don't hesitate to contact our sales team. They will be delighted to provide you with detailed information and assist you in selecting the best eco pens for your specific needs. Embrace sustainability and make a positive impact by choosing eco-friendly pens today.

TPC982301

### Hale Card Ball Pen

As well as using less plastic by having a card barrel, the trim is made from recyclable plastic.

**Pen Size:** 142 x 10mm

**Weight:** 6 gms

**Ink Colour:** Black

**MOQ:** 25 Pcs

|                                                                                     |
|-------------------------------------------------------------------------------------|

| <b>Print Area:</b> 50 x 20mm                                                        |
| <b>Engrave:</b> 50 x 10mm                                                           |
| <b>Digital Print:</b> 60 x 7mm                                                      |

500/£0.38 1000/£0.31 2500/£0.28

Card  
Barrel

Pen barrels can be made of many materials, but by using the tensile strength of recycled card you are using a material that will perform well as a barrel and will naturally compost over a relatively short period. Recycled card can also be recycled again, though eventually the recycled material will need to be downcycled into material used in clothing for example.

TPC800901

### Ayr Card Ball Pen

As well as using less plastic by having a card barrel, the trims are made from plastic made up of 50% Wheat plastic from a natural and sustainable source.
