# Selecting the Nate PEN

When it comes to promotional materials, writing instruments stand out as one of the most cost-effective and impactful choices. There are few occasions where a promotional pen wouldn't be an ideal addition. Pens are not only practical but also tend to be kept by recipients, continuing to promote your brand long after your campaign concludes.

With a plethora of options for promotional pens available, you may wonder where to begin. Below, we outline some key factors to consider:

#### Recipient

Make sure the pen you select aligns with your intended audience; for instance what appeals to an executive may not necessarily be the same as what appeals to a student.

#### 2 Budget

Take into account your budget and the quantity needed. Additionally, consider whether the promotion might be repeated later in the year. Our prices include a one colour print unless specified otherwise.

Please note that giftbox prices are separate, and there are additional costs for setup and carriage.

#### Pen Style

Numerous pen styles are at your disposal, including ballpoint pens, rollerballs, pencils, click-action, and twist pens. It's essential to consider the context of the pen distribution.

#### Pen Colour

Consider how your corporate or brand colours will harmonise with the pen's colour. A dark blue logo may pose visibility challenges on a black pen, whereas it would stand out beautifully on a white pen.

#### Pen Size

Certain pens have a rounded or bulbous shape, while others come with rubber grips. This consideration is crucial if you intend to fit the pen into a folder or a pen loop.

If you are in doubt whether a pen will fit you can request a sample free of charge.

#### 6 Print Sizing

Contemplate the content you wish to include on your pen, a strapline or contact details require more space compared to a logo. If you plan to incorporate a substantial amount of information, opt for a pen with a larger print area.

Keep in mind that your logo will need to be scaled down to fit the designated print area. Therefore, if your logo contains intricate details, it may impact the overall print clarity.

Choosing more print colours will increase the cost. If colour is essential, consider selecting a pen with a coloured body and a neutral print, like white or silver.

Additionally, we offer precise colour matching options, using Pantone® references or matching to your letterhead or compliment slip for a seamless look.

#### 8 Artwork

We require artwork in a PDF or EPS format, If not, we can offer an artwork re-drawing service, which comes at an additional cost. Rest assured, before moving to the production phase, you will always receive a visual representation of how your final pen will appear.

#### Delivery

Think about your delivery timeline, as production times can differ based on the pen model. Several models offer express services, and some can be ready within 48 hours, though this may involve extra charges.

#### 10 Packaging

Enhancing your promotional pen with a gift box can elevate its perceived value. Various gift box choices are at your disposal, featuring diverse finishes, shapes, materials, and sizes. Keep in mind that these boxes occupy additional space, which should be taken into account when contemplating storage solutions.

Be on the lookout for the 'P' Power products icon, as it signifies models that are eligible for express lead time engraving.

# Eco Pen GUIDE

A collection of eco-friendly pens and pencils made from sustainably sourced materials such as card, wheat, bamboo and wood. To reduce your carbon footprint even further, look out for European made models.

CARD BARREL

WHEAT

Utilising the robustness of recycled cardboard provides a barrel material that not only functions effectively but also naturally decomposes within a relatively prief timeframe. Recycled cardboard can also undergo recycling once more although eventually, the recycled material may be repurposed into materials used in tems such as clothing.

The wheat plastic employed in our pens combines traditional plastic with 50%-60% plastic derived from wheat straw waste. This typically discarded agricultural residue can be blended with conventional plastics to create pen components reducing the reliance on traditional petroleum-based plastics.

Bamboo is a completely natural and 100% biodegradable material, cultivated without pesticides and with significantly lower water usage compared to other crops. We responsibly source bamboo from sustainable origins to craft barrels that are not only visually appealing but also recilient.

PET plastic is extensively employed in producing water bottles and holds the distinction of being the most commonly recycled plastic. Our RPET is sourced from recycled water bottles and can undergo recycling once more – in fact, RPET can be recycled up to 10 times!

The wood employed in our pens belongs to the 'Birch' family, a completely natura and 100% biodegradable material sources sustainably.

COFFEE BARREI

Carefully crafted from recycled coffee ground waste, contributes to a sustainable and eco-friendly approach by significantly diminishing our reliance on oil-based plastic materials, thus making a meaningful impact on environmental conservation.

ALUMINIUM BARRE

Environmentally conscious pens skillfully manufactured using recycled aluminum cans for the body, some of the plastic trims are crafted from recycled PET, which is from discarded water bottles.

For more information on eco pens and their various designs, please don't hesitate to contact our sales team. They will be delighted to provide you with detailed information and assist you in selecting the best eco pens for your specific needs. Embrace sustainability and make a positive impact by choosing eco-friendly pens today.

Pen barrels can be made of many materials, but by using the tensile strength of recycled card you are using a material that will perform well as a barrel and will naturally compost over a relatively short period. Recycled card can also be recycled again, though eventually the recycled material will need to be downcycled into material used in clothing for example.
